ANATOMY

Andreas Vesalius.

On the Fabric of the Human Body. A translation of De Humani Corporis Fabrica Libri Septem.

Translated by William Frank Richardson, M.A., Ph.D. and John Burd Carman, B.Med.Sc., M.B.Ch.B, D.Phil.

Vesalius's *De Humani Corporis Fabrica* is one of the world's most famous books, and probably the greatest book in the history of anatomy. This award-winning translation will be complete in five volumes, of which the first four are currently available:

Vol. I: *Book I: The Bones and Cartilages.*

Vol. II: *Book II: The Ligaments and Muscles.*

Vol. III: *Book III: The Veins and Arteries; Book IV: The Nerves*

Vol. IV: *Book V: The Organs of Nutrition and Generation* (available January 2008)

Vol. I: Ixiv, 416pp. 73 illus. 9 x 12 inches. Cloth, dust-jacket, 80-pound Mohawk Superfine Softwhite Eggshell acid-free paper. ISBN 978-0-930405-73-1. Norman Anatomy Series, No. 1; Norman Orthopedic Series, No. 4; Norman Landmarks Series, No. 1. NP32874. \$275.

Vol. II: 492pp. 39 illus. 9" x 12". Cloth, dust jacket, 80-pound Mohawk Superfine Softwhite Eggshell acid-free paper. ISBN 978-0-930405-75-5. 1999. Norman Anatomy Series, No. 2. Norman Landmarks Series, No. 2. NP35688. \$275.

Vol. III: xxxiv, 286pp. Approx. 75 illus., including 2 large folding plates. 9" x 12". Cloth, dust jacket, 80-pound Mohawk Superfine Softwhite Eggshell acid-free paper. ISBN 978-0-930405-83-0. January 2003. Norman Anatomy Series, No. 3. Norman Landmarks Series, No. 4. NP 37975. \$275.

Vol. IV: xxii, 241pp. 31 illustrations. 9" x 12". Cloth, dust-jacket, 80-pound Mohawk Superfine Softwhite Eggshell acid-free paper. ISBN 978-0-930405-88-5. January 2008. Norman Anatomy Series, No. 4. Norman Landmarks Series, No. 5. NP40059. \$275.

BIBLIOGRAPHY

Richard L. Golden, M.D. and Charles G. Roland, M.D. (eds.).

Sir William Osler: An Annotated Bibliography with Illustrations.

The extensive list of bibliographic entries enhanced by the captioned illustrations, and various appendices on Osler's publications, make this book the definitive Osler bibliography for scholars and collectors of Osler's writings.

Limited to 1000 copies. 214pp. 105 illus. 8½" x 11". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-00-7. 1988. Norman Bibliography Series, No. 1. NP10331. \$150.

David Rubin.

Sir Kenelm Digby, F. R. S. An Annotated Bibliography.

Based on the collection of the late K. Garth Huston, Sr., this is the first complete annotated bibliographical study of the writings of Sir Kenelm Digby (1603-1665), one of the most celebrated figures in 17th-century English court life, politics,

diplomacy naval warfare, science, and bibliophily. Includes illustrations of books specially bound for Digby's library.

Limited to 350 copies. 130pp. 47 illus. 6" x 9". Cloth, Mohawk Superfine acid-free paper. ISBN 978-0-930405-29-8. 1991. Norman Bibliography Series, No.4. JN15836. \$125.

CARDIOLOGY

George E. Burch, M.D., and Nicolas P. DePasquale, M.D.

A History of Electrocardiography.

With a new introduction by Joel D. Howell, M.D., Ph.D.

The essential history of electrocardiography, originally published in 1964. The new introduction by Dr. Howell discusses and illustrates the developments in the field from 1964 to the present.

40, 309pp. 175 illus. 5½" x 8½". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-21-2. 1990. NP14346. \$135.

Geoffrey Keynes.

A Bibliography of the Writings of Dr William Harvey 1578-1657.

Third edition, revised by Gweneth Whitteridge and Christine English. Revised and updated edition of the standard bibliography of Harvey's works, with a new introduction and revised census of holdings.

xvi, 136pp. 9 plates; 13 text illustrations. Cloth, dust-jacket. ISBN 0-906795-14-7. 1989. NB12373. \$95.

COMPUTING

Diana H. Hook and Jeremy M. Norman, with contributions by Michael R. Williams

Origins of Cyberspace: A Library on the History of Computing, Networking, and Telecommunications

Extensively annotated and illustrated bibliography describing 1411 books, technical reports, pamphlets, blueprints, typescripts, manuscripts, photographs and ephemera on the history of computing and computer-related aspects of telecommunications. Covers the period from the 17th century to circa 1970; includes several lengthy essays and a detailed timeline of significant events and publications in computer history. Indexed. Printed in two colors throughout.

Approx. 670 pages. 284 illustrations. 8-1/2 x 11 inches. Cloth, 80-pound acid-free paper. ISBN 978-0-930405-85-4. Limited to 500 copies. Norman Bibliography Series no. 5. NP38301. \$500.

Jeremy M. Norman, editor.

From Gutenberg to the Internet: A Sourcebook on the History of Information Technology.

Presents 63 original readings from the history of computing, networking and telecommunications, arranged thematically by chapters. Most of the readings record basic discoveries from the 1830s through the 1960s that laid the foundation of the

world of digital information. With an illustrated historical introduction, timeline, and introductory notes.

xvi, 899pp. Illustrated. 8-1/2 x 11 inches. Pictorial boards, laminated. ISBN 978-0-930405-87-8. 2005. NP38950. \$89.50.

NEUROSCIENCES

Stephen Ashwal, M.D. (ed.).

The Founders of Child Neurology.

The first biographical study of important contributors to the field of child neurology with 124 biographical essays by over 100 physicians specializing in neurology, child neurology, pediatrics, and obstetrics.

952pp. 187 illus. 6" x 9". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-26-7. 1990. Norman Neurosciences Series, No.1. NP16165. \$125.

Edwin Clarke & C. D. O'Malley. Revised second edition.

The Human Brain and Spinal Cord: A Historical Study Illustrated by Writings from Antiquity to the Twentieth Century.

This large book contains excerpts in English from the writings that represent the great landmarks in the evolution of our knowledge of the anatomy and physiology of the nervous system. Many of these rare contributions are translated here into English for the first time. For this second edition, Edwin Clarke extensively revised the original text and updated the bibliographies and indices in light of recent scholarship.

Limited to 750 copies. 13, 926pp. 158 illus. 7" x 10". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-25-0. 1996. Norman Neurosciences Series, No. 2. NP25194. \$275.

Edwin Clarke & K. E. Dewhurst.

An Illustrated History of Brain Function: Imaging the Brain from Antiquity to the Present.

Second edition, revised, with a definitive new chapter by Michael J. Aminoff covering recent advances in imaging technology and neuroscience.

Copiously illustrated chronological survey of attempts to localize brain function, from ancient times to modern electronic imaging modalities.

Limited to 1000 copies. 188 pp., 161 illus. +11 full-color plates. 8½" x 11". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-65-6. 1996. Norman Neuroscience Series, no. 3. NP29478. \$175.

OB/GYN AND OB/GYN INSTRUMENTS

Bryan Hibbard, MD, PhD, FRCOG, FRACOG

The Obstetrician's Armamentarium: Historical Obstetric Instruments and Their Inventors

With over 500 illustrations, this work traces the evolution of obstetric instruments from ancient times to the early twentieth century in Britain, Europe, and America. A truly monumental contribution to the history of obstetrics

324 pages. 502 illustrations. Cloth, dust jacket, acid-free paper. 8 1/2" x 11". ISBN 978-0-930405-80-9. NP37973. December 2000. \$245.00

Walter Radcliffe, M.B., B.Chir., M.R.C.S.

Milestones in Midwifery and The Secret Instrument: The Birth of the Midwifery Forceps.

This reprint makes available in a single volume one of the most readable and authoritative histories of obstetrics and the exceptionally interesting history of the obstetrical forceps.

Limited to 750 copies. 193pp. 38 illus. 6" x 9". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-20-5. 1989. Norman OB/GYN Series, No. 1. NP13806. \$95.

James V. Ricci, M.D.

The Development of Gynaecological Surgery and Instruments.

Reprint of the most comprehensive work ever written on the history of gynecological surgery and instruments, from ancient Greece and Rome to the age of antisepsis at the end of the nineteenth century.

Limited to 500 copies. 594pp. 236 illus. 7" x 10". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-28-1. 1990. Norman OB/GYN Series, No. 2. NP15439. \$165.

Harold Speert, M.D.

Obstetrics & Gynecology: A History and Iconography. (formerly Iconographia Gyniatrixica). Revised edition.

Updated and revised edition of this valuable pictorial history of the subject.

540pp. 968 illus. 8½" x 11". Cloth, dust-jacket, acid-free paper. ISBN 978-0-930405-62-5. 1994. Norman OB/GYN Series, No. 3. NP40349. \$175.

ORTHOPEDICS

Leonard F. Peltier, M.D.

**Fractures: A History and Iconography of Their Treatment*

The companion volume to *Orthopedics: A History and Iconography*, this extensively illustrated work is the first history of the treatment of fractures since the classic writings of Malgaigne and Gurlt.

273pp. 270 illus. 8½" x 11". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-16-8. 1990. Norman Orthopedic Series, No. 1; Norman Surgery Series, No. 3. NP13310. \$225.

Leonard F. Peltier, M.D.

**Orthopedics: A History and Iconography.*

This companion volume to *Fractures: A History and Iconography of Their Treatment* traces the development of the specialty up to the present day, focusing on the patient and disease rather than the physician. Extensively illustrated with plates from the original sources.

305pp. 332 illus. Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-47-2. 1993. Norman Orthopedic Series, No. 3; Norman Surgery Series, No. 5. NP16308 \$225.

Hugh Owen Thomas.

Diseases of the Hip, Knee and Ankle Joints.

With a new introduction by Leonard F. Peltier, M.D.

Fascimile edition the classic book by the legendary and eccentric Liverpool surgeon and son of a bonsetter who revolutionized the treatment of musculoskeletal injuries and diseases.

Limited to 400 copies. 28, 283pp. 26 illus. 5½" x 8½". Cloth, acid-free paper. ISBN 978-0-930405-31-1. 1991. Norman Orthopedic Series, No.2. NP16309 \$150.

Limited edition of 100 leatherbound copies individually numbered and signed by Leonard F. Peltier, M.D. NP16310 \$450.

RADIOLOGY

Otto Glasser.

Wilhelm Conrad Röntgen and the Early History of the Roentgen Rays.

Reprinted from the English translation of 1933, this is the most comprehensive biography of Röntgen ever written, presenting the full story of his life and work. Limited to 750 copies.

494pp. 96 illus. 6" × 9". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-22-9. 1993. Norman Radiology Series No. 1; Norman Science / Technology Series No. 2. NP13807. \$150.

Herbert S. Klickstein, M.D.

Marie Sklodowska Curie. Recherches sur les Substances Radioactives: A Bio-bibliographical Study.

With facsimiles of the first French and first English printings of Mme. Curie's classic paper.

xv, 64pp.; 2 separate facsimiles. Illustrated. Wrappers, boxed. Distributed by Norman Publishing. 1966. RB10047. \$95.

Herbert S. Klickstein, M.D.

Wilhelm Conrad Roentgen. Eine neue Art von Strahlen.

Facsimile reprints, with English translations and exhaustive bibliography, of *Eine neue Art von Strahlen*, pts. 1-2, and *Weitere Beobachten über . . . X-Strahlen*, 1895-97.

8 separate pamphlets, boxed. Illustrated. Distributed by Norman Publishing. 1966. RB10173. \$95.

SCIENTIFIC INSTRUMENTS

Pike's Illustrated Descriptive Catalogue of Optical, Mathematical, and Philosophical Instruments. With a new introduction by Deborah Jean Warner, Ph.D. and a new index to instruments.

The most complete illustrated catalogue of American scientific instruments in the second half of the nineteenth century.

755 pages. 1582+ illus. 4½" × 7¼". Cloth, acid-free paper. ISBN 978-0-930405-54-0. 1993. Norman Science/Technology Series, No. 1. NP10172. \$125.

James W. Queen & Co.

The Queen Catalogues.

With a new introduction by Deborah Jean Warner, Curator, History of Physical Sciences, Smithsonian Institution.

Picking up where Pike's Illustrated Catalogue left off, this collection of 19 extensively illustrated and annotated catalogues, bound in 2 volumes, provides the best available record of the widest range of scientific and artistic instruments available during the latter part of the 19th century.

Limited to 500 sets. 2 vols. of approx. 832pp. each; approx. 3300 illus. 5½" × 8½". Cloth, acid-free paper. ISBN 978-0-930405-30-4. 1993. Norman Science/Technology Series, no. 3. NP16235. \$325 / set.

HISTORY OF SCIENCE

Richard Wolfe & Richard Patterson

Charles Thomas Jackson: "The Head behind the Hands"

The first full-length study of Charles Thomas Jackson, one of the most remarkable and maligned figures in the history of American science and medicine.

x, 417 pages. Frontispiece, 8 plates and 4 illustrations. Cloth, dust jacket, acid-free paper. 6" × 9". ISBN 978-0-930405-89-2. \$35.00

HISTORY OF SURGERY AND SURGICAL INSTRUMENTS

John Kirkup, MD, FRCS

The Evolution of Surgical Instruments: An Illustrated History from Ancient Times to the 20th Century

Introduction by James Edmonson.

With over 500 illustrations, this work describes the evolution of surgical instruments from ancient times to the present, with detailed commentary by an eminent historian of surgical technology.

8-1/2 × 11". xvi, 507pp. Frontispiece, 30 color illustrations, 527 black and white illustrations. Bibliography. Index. Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-86-1. May 2006. NP38632. \$275

Jacques Joseph.

Rhinoplasty and Facial Plastic Surgery with a Supplement on Mammoplasty and Other Operations In the Field of Plastic Surgery of the Body—An Atlas and Textbook.

English translation by Stanley Milstein.

First edition in English of the most famous classic of plastic and aesthetic surgery published in the 20th century. This deluxe limited edition English translation was issued in 1987 for \$300 per copy, later raised to \$395. We acquired the remainder of the edition and are offering brand new copies of this superlative publication for only \$225.

843 pages with 1718 illustrations, some in color. 175 x 200 mm. Red morocco leather spine tooled in gold, black cloth boards, in gold-stamped cloth slipcase. Printed on acid-free coated paper. (1987). ISBN 978-0-9605972-1-5. NP38970. \$225.

Charles Truax.

The Mechanics of Surgery (1899).

With a new introduction by James M. Edmonson, Ph.D.

This catalogue describes and depicts virtually the entire range of instrumentation employed in the surgical and medical practice at the turn of the century.

Limited to 1000 copies. 45, 1024pp. 2381 illus. 6-1/8" × 9-1/4". Cloth, acid-free paper. ISBN 978-0-930405-01-4. 1988. Norman Surgery Series, No. 1. NP10904. \$155.

George Tiemann & Co.

American Armamentarium Chirurgicum.

With a new introduction by James M. Edmonson, Ph.D., and F. Terry Hambrecht, M.D.

Limited to 1000 copies, this facsimile reproduces Tiemann's largest and most comprehensive surgical-instrument catalogue.

65, 846pp. 4414 illus. 8" × 11". Cloth, acid-free paper. ISBN 978-0-930405-23-6. 1989. Norman Surgery Series, No. 6. Copublished with The Printer's Devil. NP14727. \$165.

Leo M. Zimmerman, M.D. & Ilza Veith, Ph.D.

Great Ideas in the History of Surgery

A history of surgical concepts and techniques from ancient times to the early 20th century, expressed through selections from the original writings of the greatest surgeons in history. A reissue of the very scarce 1961 publication.

Limited to 500 copies. 608 pp. 115 illus. 7" × 10". cloth, dust-jacket, acid-free paper. ISBN 978-0-930405-53-3. 1993. Norman Surgery Series, no. 7. NP26899. \$125.

James M. Edmonson, Ph.D., Curator, Dittrick Museum of Medical History.

American Surgical Instruments: An Illustrated History of Their Manufacture and a Directory of Instrument Makers to 1900.

With a foreword by John R. Kirkup, M.D., FRCS, Honorary Curator, Surgical Instrument Collection, Royal College of Surgeons.

The most comprehensive and authoritative directory to date of surgical instrument makers in the United States prior to 1900. The companion essay assesses the relative quality of the instruments and identifies the most important makers and their work.

352pp. 293 illus., incl. 16 color plates. Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-70-0. Norman Surgery Series, No. 9. NP31378. \$175. Dec. 1997.

Ira M. Rutkow, M.D., Dr. P.H.

The History of Surgery in the United States 1775-1900. Volume I: Textbooks, Monographs & Treatises. Volume II: Periodicals & Pamphlets.

These two volumes list, with highly-detailed annotated bibliographical entries, the important contributions of pioneering American surgeons in the nineteenth century.

Volume 1: Textbooks, Monographs, and Treatises. 514pp. 130 illus. 7¾" × 11". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-02-1. 1988. Norman Surgery Series No. 2; Norman Bibliography Series, No. 2. NP12372. \$145.00

Volume 2: Periodical and Pamphlet Literature. 434pp. 116 illus. 7¾" × 11". Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-48-9. 1992. Norman Surgery Series, No. 4; Norman Bibliography Series, No. 6. NP12879. \$245.

Snowden & Brother/John Weiss & Son.

Surgical and Dental Catalogues from the Civil War Era: Snowden and Brother (1860) and John Weiss and Son (1863)

Reprinted in facsimile with an important new introduction by James M. Edmonson, Ph.D., Curator of the Dittrick Museum of Medical History and the leading American historian of surgical instruments and other medical supplies used in Civil War hospitals and on the battlefield. The Weiss catalogue is included because many Civil War surgeons and hospitals ordered equipment from English suppliers.

Limited to 750 copies. 344pp. Illus. Cloth, acid-free paper. ISBN 978-0-930405-72-4. Norman Surgery Series, No. 10. NP33942. \$150. Nov. 1997.

Samuel S. White.

The Samuel S. White Catalog of Dental Instruments and Equipment.

Facsimile reprint of the 1876 edition, with a new introduction by Audrey Davis, Curator, Division of Medical Sciences, Smithsonian Institution.

The best record of the entire range of 19th-century dental instruments and supplies offered by the largest manufacturer of dental instruments in the world.

Limited to 300 copies. 408pp. Approx. 500 illus. 6½" × 9½". Cloth, acid-free paper. ISBN 978-0-930405-63-2. Norman Science/Technology Series, No. 4. Norman Surgery Series, no. 8. 1995. NP29188. \$150.

Richard J. Wolfe

Tarnished Idol. William Thomas Green Morton and the Introduction of Surgical Anesthesia. A Chronicle of the Ether Controversy.

The first comprehensive biography of the life of W. T. G. Morton his role in the introduction of surgical anesthesia and the controversy that ensued. Includes much information never previously published.

7" × 10". 672 pp. 60 illus. Cloth, dust jacket, acid-free paper. ISBN 978-0-930405-81-6. 2001. Norman Biography Series no. 1; Norman Landmarks Series no. 3; Norman Science/Technology Series no. 6; Surgery Series no. 11. NP 37805. \$145.

THE AMERICAN CIVIL WAR SURGERY SERIES:

12 works in 11 volumes

THE AMERICAN CIVIL WAR MEDICAL SERIES:

13 works in 12 volumes

These two series reprint the first editions of the manuals that Union and Confederate soldiers studied and took with them to the battlefields. For each work in these series, Ira M. Rutkow, M.D., Dr.P.H., has written a new biographical essay about the author. Each volume in the series is limited to 750 copies.

Titles in the American Civil War Surgery Series:

Volume 1

S. D. Gross: A Manual of Military Surgery (Philadelphia, 1861). 186pp. 3¾" × 6". ISBN 978-0-930405-04-5. NP13207. \$50.

Volume 2

Surgeon-General: A Manual of Military Surgery, Prepared for the Use of the Confederate States Army (Richmond, 1863). Surgeon-General. 297pp. 30 plates. 4-7/16" × 6-15/16". ISBN 978-0-930405-14-4. NP13208. \$75.

Volume 3

S. W. Mitchell, G. R. Morehouse, W. W. Keen: Gunshot Wounds and Other Injuries of Nerves (Philadelphia, 1864). 164pp. 4-1/16" × 7-3/8". ISBN 978-0-930405-13-7. NP13209. \$75.

Volume 4

J. J. Chisholm: A Manual of Military Surgery (Richmond, 1861). 447pp. 4-3/4" × 7-3/16". ISBN 978-0-930405-03-8. NP13210. \$50.

Volume 5

F. H. Hamilton: A Practical Treatise on Military Surgery (New York, 1861). 232pp. 30 illus. 5-3/4" × 8-13/16". ISBN 978-0-930405-05-2. NP13211. \$75.

Volume 6

E. Warren: An Epitome of Practical Surgery for Field and Hospital (Richmond, 1863). 401pp. 4-1/2" × 7-3/8". ISBN 978-0-930405-09-0. NP13212. \$75.

Volume 7

C. S. Tripler and G. C. Blackman: Handbook for the Military Surgeon (Cincinnati, 1861). 121pp. 5" × 7-5/8". ISBN 978-0-930405-06-9. NP13213. \$60.

Volume 8

S. Smith: Hand-book of Surgical Operations (New York, 1862). 279pp. 257 illus. 4-3/8" × 6-5/8". ISBN 978-0-930405-07-6. NP13214. \$50.

Volume 9

F. Formento and M. Schuppert: Notes and Observations on Army Surgery (New Orleans, 1863). 62pp. BOUND WITH: A Treatise on Gunshot Wounds: Written for and Dedicated to the Surgeons of the Confederate States Army (New Orleans, 1861). 47pp. 5-7/8" × 9-1/8". ISBN 978-0-930405-18-2. NP13215. \$75.

Volume 10

J. H. Packard: A Manual of Minor Surgery (Philadelphia, 1863). 288pp. 4-5/8" × 7-1/4". ISBN 978-0-930405-08-3. NP13216. \$45.

Volume 11

Adjutant-General and Surgeon-General: List of Battles and Roster of Regimental Surgeons and Assistant Surgeons During the War of the Rebellion (with a new index to names) (Washington, D.C., 1883). 386pp. 5½" × 8½". ISBN 978-0-930405-10-6. NP13217. \$75.

Titles in the American Civil War Medical Series:

Volume 1

J. Ordranax: Hints on the Preservation of Health in Armies (New York, 1861). 142 pp. BOUND WITH: Manual of Instructions for Military Surgeons (New York, 1863). 238 pp. 5" × 7". ISBN 978-0-930405-34-2. NP16258. \$50.

Volume 2

J. J. Woodward: The Hospital Steward's Manual (Philadelphia, 1862). 324 pp. 5" × 7". ISBN 978-0-930405-35-9. NP16259. \$65.
